

ROBERT J. HUGENSCHMIDT, P.E.

EDUCATION

UNIVERSITY OF SOUTH FLORIDA - B.S. Structures, Mechanics and Fluids (Civil Engineering) with a dual major in structures and water resources, 1971

MEMBERSHIPS

Registered Professional Engineer, State of Florida

CAREER HISTORY

Forcon International Corp., Tampa, Florida

Associate Consultant on multiple complex construction claims and default matters involving site design, planning, stormwater conveyance systems, sanitary collection systems and lift stations, and potable water distribution systems. Developed reports addressing allegations of faulty construction and/or default after review of field conditions and examination of construction documents. Assisted in the implementation of retrofitting faulty construction.

Robert J. Hugenschmidt, P.E., Tampa, Florida

As owner of the firm, coordinated planning and engineering design efforts as well as managed client relationships. Responsible for production of civil engineering plans and specifications for projects ranging over the entire state of Florida including site design and planning, design of stormwater conveyance, treatment and attenuation systems, sanitary collection systems, lift station design and potable water systems. Provided design, permitting and field coordination services supporting construction of single family and multi-family residential developments, subdivisions, institutional, industrial and commercial complexes and development of roadways to be dedicated to municipalities. Conducted numerous field inspections supporting design efforts and to ensure construction was in conformance with plans approved by governmental agencies.

Criterion Corporation, Tampa, Florida - developer of large subdivisions in Hillsborough and Pinellas Counties, most of which were in the range of 400 to 2,000 acres.

Vice President in charge of Project Engineering. Responsible for the engineering design and approvals necessary for construction of residential and commercial projects. In charge of coordinating the design and survey efforts of 7 engineering and surveying firms, producing approximately 1,000 residential lots per year.

Dlouhy Housel & Martinez, Tampa, Florida

Chief Engineer and Associate. Responsibility, in charge of the design of several large subdivisions up to and including 1,800 acres, several area improvements projects in the City of St. Petersburg, underwater inspection of bridges in St. Lucie County and numerous commercial and industrial sites.

Griener Corporation, Tampa, Florida

Responsible for design of drainage systems at Tampa International Airport, that section of I-275 through Tampa, field inspection of all drainage systems for the entire length of the Florida Turnpike, design of the drainage system for University Mall in Tampa, design of the waterway system and bridge openings for Cape Coral, a 110 square mile drainage basin in southwest Florida near Naples, and design of numerous smaller sites.

International Business Machines, Cape Canaveral, Florida

Performed maintenance, service, repair and operation of mechanical, electrical pneumatic, hydraulic and thermal systems on the instrument unit stage of the Saturn IV launch vehicle.
