

FORCON INTERNATIONAL

MARVIN E. "GENE" BULLINGTON

SUMMARY

Mr. Bullington is an experienced fire origin and cause investigator with over 35 years in the industry. Gene specialties include but are not limited to fire and explosion origin and cause determination for residential, commercial, and industrial losses, including marine structures. He is also well versed in the evaluation of defects in product manufacturing, design, installation, and use. He has also assisted in complex matters involving building, electrical and fire code compliance evaluations. Mr. Bullington is qualified as an expert in determining the origin and cause of fires, fire growth dynamics, and electrical fire causes in cases at both State and Federal levels.
